

Comments from the evaluations of the Utah Rural Schools Association Convention workshop presented by Neal Peacock on July 11, 2014. (Full Evaluation is available).

Touched the soul and was truly a motivating force for teachers in the room.

This is a great presentation to motivate teachers to motivate students. Thanks for finding us.

Excellent class. Great energy

Highly interesting and humorous. Great ideas on motivating students and yourself as teacher. Personal touch.

I especially enjoyed the enthusiasm and sincerity of these presenters as they gave real-life, personal examples to reignite the fire of the participants.

Excellent presentation. One minute I'm laughing, the next minute I'm crying. Very sincere and though provoking. I'm actually excited to start teaching again and summer is not even finished. Thank you for getting me anxious to teach again.

Fantastic. Funny and motivating. I enjoyed it very much.

Very awesome presentation and very motivating and entertaining. Loved everything about it! Would be great keynote in the future!

Inspiring as well as entertaining

Something every educator needs to hear and be reminded of each year!

Best class of the conference. Neil was awesome and inspiring and should be given a bigger venue/classroom area.

I'm going home with five more years of enthusiasm after this session. Thank you.

Thank you for sharing and uplifting us!

We need encouragement and positive messages from time to time.
